

Kryosphere™

freezing is absolute.

Get More from Your Grants

Increase your chances for grant funding.

Stretch your research budget further.

Reduce your spending on non-essential capital equipment.

How do I maximize my grant funds ... ?

Consider outsourcing the biostorage of your research samples to Kryosphere. No more buying freezers or dedicating staff time to finding samples, or answering emergency calls at three o'clock in the morning. Kryosphere is right around the corner with a state-of-the-art facility where your samples are secure and readily available when you need them.

- Allocate more of the limited grant funds to your research by reducing your costs for sample storage and capital equipment purchases.
- Demonstrate to your reviewers that you are wisely leveraging resources through collaboration with complementary partners.

For your next grant application, let Kryosphere help.
